E12-33

Two way speaker

### E12-33

Equipped with a 12" (31cm) low frequency speaker and a 1.4" driver on a constant directivity short horn. Its shallow depth lets you install it in restricted spaces. The low frequency speaker is an exclusive model designed by DKaudio.

This speaker usually comes in a passive version (mono-amp.), but it also comes as an active filter version (bi-amp.) upon request.
